Dear Client,

We at New England Rare Coin Galleries are proud to announce a new innovation for your protection. We are now initiating what we consider to be the most meaningful coin grading guarantee in the rare coin business.

As you probably know, we were one of the innovators of proper grading in the mail order coin business. We are now one of the first to offer a coin grading guarantee, and the first to offer a guarantee that allows "no leeway for error." Our guarantee is also the first to assure proper description of all serious defects, cleaning or impairments. Since these can often affect a coin's value as much or more than an improper grade.

I don't believe that proper grading is just a matter of opinion. Anyone can make an occasional mistake, however, so we have taken positive steps to correct that situation as well. Read our new Grading Guarantee. We think you'll agree that it is a most comprehensive grading guarantee, and that it takes positive and needed steps toward the betterment of the industry.

I thank you for your continued trust and support.

Best regards,

Jim Halperin
President

THE SERIOUS GRADING GUARANTEE

A Meaningful Guarantee Backed By Careful Grading.

We guarantee that any coin sold by New England Rare Coin Galleries after December 31, 1975 will conform to the standards of the A.N.A. Grading Board, when it is operational. We guarantee to replace any coin which does not meet the standards of the Board, within 30 days of our notification of the Board's decision. If we feel a suitable replacement can't be made within 30 days, we will refund the full purchase price plus all postage & Grading Board fees.

The authenticity of all coins sold by New England Rare Coin Galleries is permanently guaranteed. As proof of our certainty that no non-authentic coin will ever escape our notice, we guarantee not only full refund, of course, but an additional payment of 10% interest of sale price per year.

We further guarantee to fully and accurately describe any serious nicks, scratches, blemishes, polishing, weak strikes or any other serious impairments.

In our opinion, grading should NOT be a matter of opinion. However, even the most experienced and greatest grader will make some mistakes. All members of our staff, therefore, have been instructed not to sell for sale, to sell, or to send out any coin, unless they agree with the grading.

QUANTITATIVE GRADING SYSTEM

This system provides a more precise method of helping the buyer ascertain the exact condition of those coins in which he has an interest. It is basically patterned after Dr. Sheldon's quantitative scale which he developed to grade large cents. The system has been almost universally adopted in recent years and is now used to describe all denominations and series from Colonials to Pioneer Gold. The numbers used in this grading system are as follows:

Poor.....	1
Fair.....	2
About Good.....	3
Good.....	4-6
Very Good.....	8-10
Fine.....	12-15
Very Fine.....	20-25-30-35
Extremely Fine.....	40-45
About Uncirculated.....	50
Borderline Uncirculated.....	55
Uncirculated.....	60-65-70

As an example of how this works, a coin which just meets the minimum requirements for Very Fine would be graded Very Fine-20. A slightly better piece would be graded Very Fine-25. A coin which would previously be graded as Very Fine to Extremely Fine would be a Very Fine-30, while a coin that falls just short of the Extremely Fine grade would be graded a Very Fine-35. In some cases, a plus sign (example: VF/EF-35+) is used to denote that a coin is very close to the next highest numerical grade.

This grading system has been used mainly on U.S. coins only. Conventional grading has been used for the most part on foreign coins and currency.

We caution that all dealers' grading, numerical or otherwise, is NOT the same as ours. Many buyers have the mistaken impression that any dealer that grades numerically, grades correctly. If our MS-60 is priced higher (or lower for that matter) than another dealer's coin, we still suggest some comparison shopping to determine which is the best value. We think our grading is the most conservative and consistent in the industry...but we don't expect you to take our word for that. Compare our coins with those advertised elsewhere and see for yourself!

CHOICE COINS FROM NEW ENGLAND'S LARGEST AND MOST ACTIVE RARE COIN DEALERSHIP

OUR POLICY

Here at New England Rare Coin Galleries, the emphasis is always on quality since we believe that top quality, more than pays for itself in the long run. If you agree with our philosophy, then we surely have what you are looking for!

QUALITY AND VALUE

We grade all of our coins accurately and conservatively, and if there is any doubt, we always grade in the customer's favor. Quite often our "AU" coins will be equivalent to, or better than, coins offered as "BU" or even "Choice BU" by some other coin sellers. All coins are described as fully and accurately as possible and since we don't believe in pushing grades or ignoring defects, weak strikes, minor scratches, nicks or signs of cleaning are always mentioned.

This is why our prices may seem higher at times, so if you are shopping prices, make sure you shop grading standards as well! An overgraded coin is seldom a bargain, even at so-called "bargain" price.

The very fact that many of America's leading and most knowledgeable dealers, collectors and investors continue to buy at an ever increasing rate from NERCG, should be testimony to the fact that we do indeed offer you the best possible value per dollar spent on today's market.

EXPERTISE

Our staff is comprised of some of America's finest and most knowledgeable numismatists who can guarantee authenticity because they know the difference. In fact, members of our staff are often called upon as consultants and adjudication by museums, government agencies and other coin dealers. Members of our staff are constantly in touch with the coin market by attending virtually every major coin show and many major dealers are members of the F.A.C.T.S., national teletype circuit and thus have extensive direct contact with all aspects of the rare coin market. We understand the true values of rare coins which gives us the ability to offer our customers meaningful advice as to which coins are likely to prove to be the best possible investment. Rather than base our advice solely upon mintage figures which can be misleading, we prefer to base it upon true rarity, current demand versus anticipated future demand, past performance and several other aspects of market trends.

With our help, our customers have made tremendous profits by investing in rare coins. In fact, the gains made by our investment clients have far outpaced the coin market in general.

PROFESSIONAL INTEGRITY

New England Rare Coin Galleries' reputation for delivering quality, value and service is second to none and has made us one of the most respected names in the industry.

Members of our staff are in good standing of such national numismatic associations as A.N.A., B.R.N.A., C.S.N.A., C.E.M.A., M.A.N.A., H.C.D.A. and many others. Also, for the past three years, our firm has received the Krause Publications (Publishers of "Numismatic News" and "Coins" magazines) Customer Service Award.

We consistently offer correctly graded coins at fair prices because at NERCG, we are looking for long term repeat business, not one time sales. Our policy of offering sincere advice to our clients, rather than touted the investment potential of coins we don't really feel are good values has paid tremendous dividends to our clients and ultimately to ourselves as well.

SERVICE

We are here to meet your every numismatic need and can offer you competent advice on virtually any aspect of numismatics or the rare coin market. We are always in a position to obtain the coins you desire for your collection or portfolio.

We feel that our mail order service is unsurpassed in the rare coin industry since all orders are processed and mailed to you the same day they are received. All packages are shipped fully insured and all non-local orders are sent via AIR MAIL. We know you don't like to wait any longer than necessary to receive your coins and that is why filling your orders quickly and efficiently is so important to us. If you try our service, we guarantee you will be pleased.

WANT LISTS

Nearly half the coins we handle never appear in an advertisement or catalog. Instead, they are sold immediately upon purchase to customers who have sent us their want list; since at NERCG, want lists are serviced, not ignored. If you are looking for a particular coin, or coins in a particular grade, please send us a list and we'll do our best to locate them for you. Of course, there is never any obligation on your part.

INVESTMENT COUNSELING

Members of our staff are always in a position to advise you as to the coins, which, we feel, will offer you the best return per dollar invested based on your anticipated holding period. We are extensively involved in all phases of the coin market and no one is more qualified than we to recognize truly scarce and underpriced numismatic items.

Although we do not recommend the purchase of rare coins as a short term investment, we feel that for long term investment, no better medium exists. Investment packages can be tailor made to your individual needs and if you would like to discuss this service, please call us.

SELECTION

We actually have greater difficulty in purchasing quality coins than we do in selling them. Fortunately, our sources in this regard are nearly unsurpassable. Many of America's leading dealers and collectors regularly call on us with rare and desirable numismatic properties. Our high volume, low margin of profit business allows us to pay competitive and often record breaking prices for rare coins.

Members of our staff attend virtually every major coin convention and examine several million dollars worth of coins each week so that we may bring our customers the very best values from other dealers' inventories.

As a point of interest, we do not hold back portions of our inventory and keep the best investments for ourselves as many dealers do, since we feel that our valued customers deserve to profit from this incredible market. In fact, all of our new purchases are immediately available for sale as soon as we catalog and price them.

Our inventory, which consists of approximately two million dollars worth of numismatic United States coins alone, is one of the largest and most comprehensive in the nation. Our business is to meet our clients' needs and we think we do an excellent job of it.

ALTERNATE CHOICES

We attempt to price and grade all our coins to be outstanding values, so naturally, choice, desirable coins that are priced to sell (and most of the coins which we offer for sale fit into that category) cannot be expected to remain unsold for long.

Invariably, when we publish our advertisements and catalogs and price lists, we will get multiple orders — often as many as 10 or 15 orders for the same coin. Since nearly all items are one or two of a kind, we often must disappoint our customers with "sold out" letters and refund checks. This is certainly regrettable, but the alternative of pricing our coins higher to avoid multiple orders doesn't appeal to us, nor would we expect it to appeal to our customers.

Therefore, all we can advise is to please order as soon as you can and list second choices if possible. Naturally, we will never use your second choice listing unless we are sold out of your first choice.

TELEPHONE SERVICE

You may receive any coin from our advertisements or catalogs by telephoning us Monday through Friday between 9:00 a.m. and 6:00 p.m., E.S.T., at (617) 879-7711. On orders of \$100 or more, you may use our toll free WATS line (800) 225-3858 from anywhere in the Continental United States except Massachusetts.

MASTER CHARGE and BANKAMERICARD are welcome, however, we request that you send a written order, which must contain your signature as it appears on your card along with all the raised information. You may call to reserve items to be paid for by credit cards, but the coins will be held pending receipt of your written order.

TERMS OF SALE

A WORD ABOUT QUALITY VS. PRICE
 All coins sold by New England Rare Coin Galleries are graded by the strictest of standards, and priced competitively. However, at times our prices may seem higher than those of other dealers. The fact is that there is no Santa Claus in numismatics [as Virgil Hancock so often said]. Always beware of a coin at a seemingly "bargain price" for it will seldom turn out to be what it is supposed to be. When you order from us, you are assured of a CORRECTLY GRADED coin at a fair price, every time.

NEW ENGLAND RARE COIN GALLERIES

NEEDS TO BUY COINS, TOO

Gold collectors and investors are faced with a dilemma when it is time to sell. Who should the coins be sold to? What method should be used? (Outright sale for cash? Auction? Private treaty assignment?). And most important, the collector usually wants to go to a reliable dealer where he is assured of the best possible deal. Many collectors and dealers are learning that New England Rare Coin Galleries is just that place.

N.E.R.C.G. purchases hundreds of thousands of dollars in rare coins each month for cash. As the demand for rare coins exceeds the number that collectors and investors can supply us with, we must purchase many (well over 75%) of our coins from other dealers. These are coins which they purchased from collectors at sub-wholesale prices to sell to us! Why not go where top dollar is being paid - to N.E.R.C.G.. Dealers do, why not you?

Our buying interests are not confined to choice and rare U.S. coins. Members of our staff have purchased some of the finest paper money collections sold in the past five years, and our staff is knowledgeable in (and eager to buy) rare foreign crowns, minors and gold.

As coin retailers, we are able to pay top dollar. We have collectors ready and waiting for your rare coins, and we're ready to pay more to get them.

If you do not choose to sell your coins outright, we offer the services of the newly formed New England Rare Coin Auctions. Every auction will be given heavy exposure and catalogued expertly by our staff. Cash advances are available if you wish.

Occasionally, a situation arises where neither outright sale nor auction is the answer. Private treaty sales are sometimes executed by N.E.R.C.G. for a small commission. (We recently sold a mint error for a client for which he received nearly six thousand dollars!) If you have a rare coin, the odds are 99-1 we have a customer for it. If you have a collection, large or small, we definitely have the best facilities to handle it, no matter what means you prefer. (We'll be glad to advise you of the best means of disposing of your collection if you wish.)

No matter how large your collection, we are financially able and numismatically knowledgeable enough to handle it. If you know of a collection for sale, we will be happy to pay a generous finder's fee for your assistance in directing us to it. And even if the "collection" involves only one major coin and nothing else, we're eager to buy it! In fact, the highest price ever paid for a single coin in the history of the American Numismatic Association Convention was paid by N.E.R.C.G.!

To put it simply, we are serious buyers of rare coins. We are famous for paying top prices in the industry; no one pays more! We want to buy coins, we HAVE to buy coins. If you are ready to sell, contact New England Rare Coin Galleries. Call toll-free 800-225-3888 or in Massachusetts collect, 617-379-7711, to set up a time for us to view your collection.

CAN WE REALLY HELP?

There are many dealers today offering coin investment packages. So why choose New England Rare Coin Galleries? Are we really "better" than anyone else at picking investment winners, or is it just a blind guess? At N.E.R.C.G., the "blind guess" is never a factor in our decision on what to send you; a comprehensive knowledge and understanding of the coin market is a factor, in fact, the primary factor.

In the last several years, the coin market has been so good one would have been hard-pressed to pick a loser. However, assuming a dizzying upward spiral in nearly every issue cannot continue forever (a safe assumption, to be sure), then what exactly does a sound and sane investment in the rare coin market entail? N.E.R.C.G. has the answer. A sure winner every time? Impossible! The best possible chance for investment growth in rare coins? Every time!

Why? First of all, N.E.R.C.G. does not recommend coin investment if you cannot hold for at least 3-5 years. This policy does eliminate the "in-and-out" profits profit on short term, highly speculative items, but it is also able to consistently pick winners in these items. And you don't need us to tell you this. It also eliminates the "promotional" items, where "quick money" is also made. But more importantly, it also eliminates the large losses also associated with these issues. During the so-called "downward cycle" of late 1965 to 1969, we knew of an investor who made 411% on coin investments. He was not omniscient, only sensible; lucky indeed, but also very well informed. We don't promise or even wish to imply that you can expect such remarkable success, but our experience and guidance in the rare coin market will give you an excellent chance at nice profits while enjoying the beauty, historical interest, and overall value of rare coins.

What you do receive and do *not* receive in your investment packages, is of equal importance. You will receive rare coins of outstanding quality, graded correctly and priced fairly. Each coin is personally selected for you by veteran numismatist and investment counselor. You will receive rolls of later date coins, including recently minted coins, medals of many kinds, modern restricted low grade sets - "safe issues" or "tail-end" of "over-stocked" issues. For instance, most coin collections we purchase include some outstanding coins and some not-so-outstanding. We do pick out the best for our ads and "dump" the remainder on an investment customers: one coin in each package is from our regular rare coin inventory. If we purchase a collection which includes a large quantity of one particular coin, we won't send every investor one just to get rid of it. Each coin is selected because we feel it has excellent investment potential. No coins are included in which the value is primarily based on intrinsic value as such coins fall into the "short-term" investment category and do not serve your purpose and objective of *long-term* investing.

In a few short years, N.E.R.C.G. has grown into New England's largest and most active coin company. We are a leading source of rare coins for many major coin companies, and several times, our sales to other dealers at a single coin show have totalled well into six figures. By buying from N.E.R.C.G., you too can buy from the source. We have handled some of the top rarities in all of numismatics. In fact, members of our staff have bought and sold every gold dollar except the 1849 C Open Wreath, every quarter eagle date ever issued, every three dollar gold except the 1875, every \$5 gold piece from 1828 to 1929 except the 1841-O and 1854-S, and every \$20 gold piece except the 1884, 1861-P Paquet, and 1927-D. With such exposure to rare coins comes expertise, and the staff of professional numismatists at New England Rare Coin Galleries is unequalled.

Many investors have encountered problems ordering investment packages from other dealers - problems they would never encounter at N.E.R.C.G. For instance, one investor ordered from several companies and the following happened. From company #1 he received a gold commemorative at the "wholesale" price. Had the coin been accurately graded, it would indeed have been a fair price. However, the coin was overgraded a full grade and was only worth about 60% of the asking price. From company #2, he received 2 modern common coins which were accurately graded but overpriced a full 35%. While it is difficult to put an exact value on rare coins, these coins were such that an exact value could be placed, as they were a modern issue. Anyone could purchase one or one hundred of these coins at 35% less. From company #3 he received nothing. Not until four months and three letters of inquiry later did he finally receive any coins at all! A neat story which serves our purpose, admittedly, but also a true story, as a member of our staff was the "investor" involved. None of these things would ever happen with a N.E.R.C.G. investment package. First of all, each coin is accurately graded personally by company president, Jim Halperin. Secondly, the coin is priced, fairly and competitively, but with the accurate grade taken fully into account. Finally, when your check is received, your coins are shipped promptly. Always. There are no exceptions.

When the coin investor is ready to sell, there are many avenues open to him. If he chooses to sell the coins to us, or through us, we offer our own auction service, New England Rare Coin Auction. A private treaty sale can also be arranged where we will sell the coins for him for a small commission. Or, if he prefers, we will purchase the coins outright for cash. Buying or selling, the customer is always treated fairly at N.E.R.C.G., and we strive to give him exactly what he wants.

The services N.E.R.C.G. offers are many, as complete as possible, and we are one of the few rare coin companies which offers coin investments applicable to the Keogh Act, which provides our customers with a sizable tax advantage. In addition, profit-sharing and pension plans are available for funding with rare coins. Investors large and small have the best chance at sizeable profits in rare coin investments when they deal with us, as we provide our customers with every possible aid.

No name in numismatics is more respected than New England Rare Coin Galleries. This reputation has been built on accurate grading, fair, realistic prices, excellent service, and overall high business ethics. We have become "the company to see" when seeking rare and choice coins, and our success has not been only in New England, but nation wide.

In addition, in our programs, we provide you with background information on each coin so you know precisely what you have purchased. An explanation of grading (with reference to any special characteristics of this particular coin, such as striking, etc.) and the reason for pricing the coin the way it was priced are also provided.

We also pride ourselves on our expertise in authenticating rare coins. This is very important, as there are many counterfeit coins which we can easily detect because of die characteristics, color, strike, and surfaces - characteristics which can only be spotted by an experienced student of numismatics. Members of our staff are frequently consulted by museums, government agencies, and other dealers for assistance in coin authentication. Every coin sold by N.E.R.C.G. carries a lifetime guarantee of authenticity.

Many of our investors have ordered from us for years, and have shown excellent to amazing profits. We value these customers greatly, and we are happy to say many have told us we are equally valued by them for our counselling and for the high quality and value in rare coins that they have received. The world of numismatic investment awaits you, and New England Rare Coin Galleries would be glad to show you how we can help.
